WORK EXPERIENCE

Software Development Engineer Intern | Bluestock Fintech (Remote)

Jan 2026 – Feb 2026

- Gained exposure to fintech product architecture and modern full-stack development workflows.
- Participated in Agile sprint discussions and observed feature planning and development processes.
- Reviewed frontend modules and API integration flows using Git-based repositories.
- Contributed to internal documentation and system understanding.

PROJECTS

PrepMate – AI Interview Platform [\[Live\]](#) | *Next.js, TypeScript, Tailwind CSS, Supabase*

- Built a scalable full-stack interview practice platform that processes real-time text and voice inputs with low latency for unlimited mock interview sessions.
- Integrated the Google Gemini API to generate role-specific interview questions and provide detailed performance feedback and analytics in under 2 seconds.
- Designed a secure PostgreSQL database schema and implemented Clerk-based authentication, achieving a 90+ Google Lighthouse score and reducing page load times by 40%.

E-Summit'25 Website [\[Live\]](#) | *TypeScript, Next.js, MongoDB, WebSockets*

- Developed an event registration platform handling 4,500+ active users and 300+ teams with real-time team creation and strict role-based access control.
- Implemented a live Round 1 challenge interface and interactive Round 0 quiz module using WebSockets for instantaneous state synchronization and leaderboard updates.

Futurepreneurs 10.0 Website [\[Live\]](#) | *Next.js, MongoDB, HTML/CSS*

- Deployed a secure Node.js-based registration and assessment portal supporting 2,200+ concurrent participants with team-based access control and 99.9% system uptime.
- Built a real-time bidding game workflow and streamlined quiz pipeline that increased participant engagement and reduced manual administrative tracking by 80%.

CERTIFICATIONS

- **Oracle Certified Foundations Associate** – AI Foundations, Oracle University **Sept 2025**
- **Oracle Certified Associate** – Architect Associate (Cloud Infrastructure), Oracle University **Sept 2025**
- **Blockchain Developer** – IBM Career Education Program **June 2025**

EXTRACURRICULAR ACTIVITIES

- **Senior Technical Executive, Entrepreneurship Cell, VIT Vellore (April 2024 – Present):** Built and maintained large-scale event platforms using Next.js, TypeScript, and MongoDB for Futurepreneurs and E-Summit, ensuring stable performance and real-time data updates for more than 4,500 participants.
